

THE CENTRE FOR MATHEMATICS, SCIENCE AND TECHNOLOGY EDUCATION IN AFRICA (CEMASTE)

CEMASTE, a public institution under the Ministry of Education, invites students, teachers, parents and the general public to join in celebrating the **World Science Day for Peace and Development** on Friday, 10th November 2017.

The Centre is mandated to provide continuous professional development of mathematics and science teachers for effective delivery of curricula and committed to providing quality In-Service Education and Training.

This day, provides us an opportunity to join the world to recognise and appreciate the significant contribution of science to the promotion of global connectedness. It is also a day to celebrate and demystify Science as fun and a normal process that touches all aspects of our daily lives.

CEMASTE is committed to promoting science through enhancing and supporting creativity, innovative and critical thinking.

The celebration will begin at 8.00 a.m. with a 4-km Walk from the Hub Karen to CEMASTE (located at the junction of Karen Road – Bogani Road) next to Karen Blixen. Afterwards participants will plant trees to commemorate the day, experience scientific innovations from different groups and an expert talk on **'Science for Global Understanding'**.

We thank the Republic of Kenya and the Ministry of Education for immense support to CEMASTE.

Do not sit on the side-line of science – get involved
